

# Marlene Ivon Rouvier

**Product-minded Designer with Frontend & Delivery experience**

+61 455 198 676 | marlenei.rouvier@gmail.com | [LinkedIn](#) | [Portfolio](#)

## PROFESSIONAL SUMMARY

Product-minded Designer with a background in Frontend Development, comfortable working within structured, high-performance environments.

I enjoy taking projects from early ideas through to delivery, understanding user's needs, shaping solutions, and collaborating closely with engineers along the way to ensure quality in delivery.

I'm comfortable working in fast-paced environments and enjoy building practical, user-focused solutions.

I actively experiment with AI tools to streamline workflows, move faster, and enhance the quality of delivered solutions.

## END-TO-END OWNERSHIP

- Collaborated closely with Project Managers to understand scope and priorities
- Contributed to shaping solutions with a focus on usability and real user needs
- Worked in structured delivery environments aligning design and development
- Strong understanding of how features move from concept to production
- Proactively expanding into UX/Product to take ownership of outcomes, not just implementation

## EXPERIENCE

### Freelance Product Designer / Frontend Developer

Remote | April 2024 – Present

- Designed and developed small-scale web projects, combining frontend development with UX/UI improvements
- Led the redesign and restructuring of a business website using Figma, improving usability, content structure, and overall user experience
- Worked directly with stakeholders to understand needs, and define solutions
- Focused on creating practical, user-centered solutions with real-world constraints
- Continued developing skills in UX design, mobile-first thinking, and product-oriented problem solving

## **Frontend Developer – Globant (Deloitte)**

Córdoba, Argentina | Apr 2022 – Dec 2023

- Delivered scalable solutions using Angular in enterprise-level environments
- Collaborated closely with Product and Project Managers on delivery
- Improved usability and interface structure applying user-centered thinking
- Worked in structured, high-performance teams with strong focus on quality and delivery

## **Angular Developer – Globant (Deloitte)**

Córdoba, Argentina | May 2021 – April 2022

- Built and maintained frontend components using Angular, HTML, and CSS
- Contributed to improving UI consistency and application performance
- Worked collaboratively within other developers and the PO to deliver features efficiently, and matching deadlines.

## **Operations & Academic Coordinator – Passport Idiomas**

Córdoba, Argentina | March 2019 – April 2021

- Coordinated operational and academic activities across the institution, ensuring smooth day-to-day execution
- Led coordination of meetings and internal processes, improving alignment and efficiency to fulfill deadlines
- Managed schedules, resolved operational issues, and handled multiple priorities in fast-paced environments
- Acted as a central point of communication between teams, ensuring clarity and organization across stakeholders
- Identified gaps in processes and contributed to improving internal workflows and coordination systems

## **SKILLS**

Design: UX/UI, User Flows

Frontend: Angular, HTML, CSS, JavaScript, Typescript

Product: Problem-solving, Cross-functional collaboration, Delivery thinking

Tools: Figma, Git

AI: AI-assisted workflows, Rapid prototyping, Iterative problem-solving
